SUMMARY

Product and project delivery professional with 7+ years of experience across fintech, banking, crypto, and digital platforms. Strong background in KYC and onboarding, digital product improvement, exchange operations, stakeholder and vendor coordination, requirements gathering, and cross-functional delivery. Combines product management, project management, Scrum-based execution, and business analysis with recent international experience in Japan.

SKILLS

PM: Product, Project, Scrum, BA, Agile, KYC, Compliance
Ops: Vendors, Onboarding, Jira, Confluence, Teams, Figma

EXPERIENCE

Career Development & Japanese Language Study

Japan

Professional Development

Mar 2025 - Jun 2026

- Relocated to Japan and used the transition period for structured professional development and preparation for long-term roles in Japanese and international environments.
- Completed a short financial services transition assignment before relocation, then pursued intensive Japanese language study from Jul 2025 to Jun 2026.
- Strengthened cross-cultural communication, understanding of Japanese workplace expectations, and readiness to work effectively with Japan-based and global teams.

XSpring Digital

Bangkok, Thailand

Product Manager

Jun 2022 - Jan 2025

- Led product and project delivery across regulated fintech initiatives, improving operational workflows, supporting digital transformation priorities, and coordinating execution across product, engineering, compliance, customer support, accounting, and external vendors.
- Helped improve the dividend payout process by proposing a cron-job-based approach to replace manual calculations, coordinating a 5-person cross-functional group to support a faster and less error-prone workflow.
- Coordinated onboarding and KYC process improvements with a team of approximately 15 people, helping align implementation with business needs, customer experience goals, and regulatory expectations.
- Ran agile ceremonies, owned timelines, and partnered with the Head of Product on prioritization, delivery planning, and execution across 2 to 3 squads at a time.
- Supported exchange operations and customer onboarding, including coordination around the exchange platform, vendor collaboration, and monitoring of the APEX trading engine.
- Contributed to exchange feature enhancements, ICO-related initiatives, and planning for a broader digital asset and funds platform.

Satang Tech

Bangkok

Project Manager / QA Manager

Mar 2019 - May 2022

- Progressed from QA into project management while supporting feature delivery for a crypto application in a fast-moving fintech environment.
- Coordinated new feature delivery and issue management, helping ensure production issues were captured, prioritized, and routed to developers for resolution.
- Worked closely with Thai and international developers, leading regular meetings to track progress, clarify requirements, and keep teams aligned on priorities and next steps.
- Partnered with business and operational teams to gather insights, identify pain points, and support feature improvements or new initiative proposals.
- Built and maintained project plans, adjusted schedules as priorities shifted, and kept stakeholders informed throughout the delivery lifecycle.
- Applied QA depth to strengthen release readiness, technical review discussions, and communication between business teams and engineering.

Alliance Technology
Senior Quality Analyst

Bangkok
Sep 2016 - Oct 2018

- Analyzed requirements, developed test coverage, and executed test cases to support reliable product delivery.
- Contributed to test scenario planning and documented results for management review and release readiness.
- Served as a communication bridge between product owners and developers during testing and issue resolution.

Sandbox
Quality Analyst and Game Producer

Bangkok
Apr 2016 - Aug 2016

- Supported executive priorities through end-to-end project coordination from initiation to delivery.
- Created and executed test plans, reporting outcomes, defects, and risks.

International Financial Data Services
QA Analyst

Bangkok
Jan 2016 - Mar 2016

- Developed and executed test cases to evaluate software quality and support release readiness.
- Tracked progress against timelines and used PL-SQL to acquire data for testing activities.

Hotelquickly
Tester

Bangkok
Dec 2014 - Dec 2015

- Executed cross-platform testing, monitored live issues, and managed defects through tracking tools.
- Developed test scripts and cases to strengthen functional coverage.

Diakrit
Web Producer

Bangkok
Feb 2013 - Dec 2014

- Delivered web products against specification while maintaining consistent quality standards.

Compucorp Ltd.
Intern

Watford, UK
May 2012 - Sep 2012

- Implemented a booking system for a medical clinic and supported software performance and maintenance.

Kasikorn Asset
Web Designer, Tester

Bangkok
Dec 2008 - Dec 2009

- Created advertising banners and supported web migration testing.

EDUCATION

University of Sunderland
MS Project Management

2011 - 2013

Kasetsart University
BS Computer Science

2007 - 2010
