

SUTHINEE SUPATTRAPAN

Product Manager | Fintech & Payments | Tokyo, Japan
suthinee.en@gmail.com | 070-9197-7583 | [linkedin.com/in/nee-suthinee](https://www.linkedin.com/in/nee-suthinee)

PROFESSIONAL SUMMARY

Product Manager with 7+ years delivering regulated fintech products across payments, crypto exchange, and digital asset platforms. Track record of translating complex business and compliance requirements into executable plans, leading cross-functional teams of up to 15 people across 2-3 concurrent Agile squads, with strong expertise in KYC, onboarding, release readiness, and vendor coordination. Targeting product manager roles in Tokyo-based fintech, payments, or technology companies.

CORE COMPETENCIES

Product	Requirements Definition · Roadmap Planning · Prioritisation · User Stories · Workflow Improvement
Delivery	Scrum / Agile · Release Readiness · Risk & Timeline Management · Cross-functional Leadership
Domain	Fintech / Payments · Crypto Exchange Operations · KYC & Compliance · Onboarding · ICO Platforms
Tools	Jira · Confluence · Figma · Microsoft Teams
Languages	English (Professional) · Japanese (Intermediate, JLPT N3) · Thai (Native)

PROFESSIONAL EXPERIENCE

XSpring Digital · Bangkok, Thailand Jun 2022 – Jan 2025
Product Manager

- Owned end-to-end product and project delivery across regulated fintech initiatives, translating business, operational, and compliance needs into clear requirements and coordinating execution across product, engineering, compliance, customer support, accounting, and external vendors.
- Replaced a manual dividend payout process by proposing and delivering a cron-job-based automation solution, coordinating a 5-person cross-functional team to eliminate calculation errors and reduce processing time significantly.
- Led KYC and customer onboarding process improvements across a 15-person team, aligning implementation with regulatory requirements, business objectives, and customer experience standards.
- Ran Agile ceremonies and owned timelines, risks, and prioritisation decisions across 2-3 concurrent squads, working directly with the Head of Product.
- Managed coordination across the crypto exchange platform, external vendor relationships, and the APEX trading engine to maintain operational continuity and service quality.
- Contributed to exchange feature enhancements, ICO-related initiatives, and strategic planning for a broader digital asset and funds platform, with QA-informed release checks before stakeholder sign-off.

Satang Tech · Bangkok, Thailand Mar 2019 – May 2022
Project Manager | QA Manager

- Progressed from QA into project management over a 3-year tenure, delivering features for a regulated crypto application in a fast-moving fintech environment.
- Managed full delivery lifecycles from requirements clarification through testing, release readiness, and post-release defect management, ensuring production issues were prioritised and resolved efficiently.

- Led regular coordination sessions with Thai and international development teams, maintaining alignment on priorities, timelines, and next steps across concurrent workstreams.
- Partnered with business and operations stakeholders to identify pain points and translate insights into actionable feature proposals and improvement initiatives.
- Applied structured QA practices to technical review discussions, acting as a bridge between business teams and engineering to raise release quality across the board.

Alliance Technology · Bangkok, Thailand

Sep 2016 – Oct 2018

Senior Quality Analyst

- Designed test coverage plans, executed test cases across multiple product lines, and served as the primary communication bridge between product owners and engineering during testing and issue resolution.

Earlier Career · Bangkok, Thailand

2008 – 2016

QA Analyst, Tester, and Web Producer roles at Sandbox, International Financial Data Services, Hotelquickly, Diakrit, and Kasikorn Asset, covering functional and cross-platform testing, defect management, test plan development, web content production, and game QA.

EDUCATION

University of Sunderland · United Kingdom

2011 – 2013

MSc Project Management

Kasetsart University · Bangkok, Thailand

2007 – 2010

BSc Computer Science

PROFESSIONAL DEVELOPMENT

Tokyo Relocation & Language Study · Tokyo, Japan

Mar 2025 – Jun 2026

- Relocated to Tokyo in 2025 to build a career in Japan's technology sector, completing intensive Japanese language study from Jul 2025 to Jun 2026 and reaching JLPT N3 working proficiency.
- Designed and shipped a public JLPT N3 study web application as a personal product project, incorporating placement testing, spaced-repetition review, progress tracking, and a vocabulary game across 350 vocabulary items, 120 kanji, and 60 grammar patterns.
- Completed a short financial services consulting assignment during the early transition period.
